

Rheumatism

A HOME CURE GIVEN BY ONE WHO HAD IT

In the spring of 1913 I was attacked by muscular and inflammatory Rheumatism. I suffered only three years. I tried every remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case. I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to you. After you have used it and it has proven itself to be that long looked-for means of curing your rheumatism, you may send the price of it one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. I don't want you to suffer any longer when positive relief is thus offered you free? Don't delay. Write today.

Mark H. Jackson, No. 38-F Currier Bldg., Syracuse, N. Y.
Mr. Jackson is responsible. Above statement true.

NAVAL OFFICERS DECLINE TO ACCEPT DECORATIONS

Newport, R. I., Dec. 26.—Word that Vice Admiral H. P. Jones and Captain Raymond D. Hasbrouck had followed the example of Admiral Sims in declining to accept decorations awarded the men the recent published navy list, was received in naval circles here tonight.

According to the information received here, Vice Admiral Jones, who commands the first division of the Atlantic fleet, has written to Secretary Daniels declining the award of the distinguished service cross and protesting against certain awards to members of forces under his command during the war. His principal war commands were those of the first squadron of the patrol fleet and of the Newport News of the cruiser and transport force.

Captain Hasbrouck, now in command of the battleship Minnesota, is understood to have asked Secretary Daniels to remove his name from the list of awards of the distinguished service cross. He formerly commanded the transport which was sunk by a German torpedo.

FIRE IN UNITED VERDE COPPER MINE 20 YEARS

Jacobs, Ariz., Dec. 26.—The fire, which for more than twenty years has burned in the upper levels of the United Verde copper mine here, is about to be eliminated by a drastic process of lowering the entire surface of the property to a 400-foot level. All attempts to extinguish it have failed. It is the general opinion that the fire was started by a pile in the rock producing sufficient friction heat to ignite the ore rich in sulphur. It has burned its way through veins of copper, gold and sulphur.

The process of suppressing the fire involves the removal of 14,000,000 cubic yards of material. The area to be excavated is roughly estimated at 400 by 500 feet. Twenty steam shovels are to be employed in the work.

It is expected that the task of removing the entire top of the mine, and extinguishing the fire, will occupy several years.

STEAMER MOCCASIN SAILS FOR SOUTH AMERICA TODAY

New York, Dec. 26.—The United States shipping board's steamer Moccasin, the last of a fleet of seven former German passenger liners recently allotted for service to South America, will leave here at noon tomorrow.

The ship will carry between 40 and 50 passengers in addition to mail and a full cargo of exports. Ports of call have been designated by the Munson Line operators at the fleet, Rio de Janeiro, Santos, Montevideo and Buenos Aires. Other vessels intended for the service are now in shipyards undergoing alterations and changes in engine and boiler equipment.

The Moccasin is a vessel of 4,760 tons and prior to this time when the United States entered the war, she was the Prinz Joachim of the Hamburg American Line.

LEDYARD

Many from out of town returned Christmas and ate the Christmas dinner at the Ledyard table. Mr. and Mrs. Ernest Smith and daughter of Franklin were at the home of Mr. and Mrs. Isaac C. Goss. Arthur D. Barrett of Philadelphia came home to be with his family over Christmas. Ray D. Holdridge was home from Stores Dept. at was also Elmer Avery, former Chief of the fleet, and Col. Wetman and family were guests of Mrs. Fannie Lamb; Mrs. Nellie Main was the guest of her sister, Mrs. S. E. Holdridge. Christmas day, and Newton H. Hayward of Mystic was with his parents, Mr. and Mrs. Frank G. Hayward, Christmas day.

Judge S. E. Holdridge has received his appointment as census enumerator for the whole town of Ledyard and Gales Ferry. Mr. Holdridge took the census for this town in 1910.

Miss Ruth H. Main, teacher in District No. 4, Ledyard, is spending the vacation with relatives in New London.

The most difficult thing for an artist to draw is a salary.

The charm of a lovely skin may be yours

A clean, healthy skin is usually a lovely skin, but the use of the proper soap is necessary.

Resinol Soap

is especially cleansing, yet it is mild and soothing because it contains the Resinol properties prescribed by physicians for years in the treatment of skin troubles. It gives a rich, refreshing and invigorating lather that you can really feel in cleansing.

RESINOL SOAP is also excellent for the shampoo as it tends to lessen dandruff and make the hair soft and lustrous.

At all druggists and toilet goods dealers.

There is no advertising medium in Eastern Connecticut equal to The Bulletin for business results.

ECHOES FROM THE LODGE ROOMS

The holiday season was marked with nothing except the routine happenings in local fraternal circles. A few of the lodges made nominations for their annual elections to be held in the New Year. Several of the lodges omitted their regular meetings.

ODD FELLOWS.

Uncas lodge, No. 11, held their regular meeting Monday evening at Odd Fellows' hall on Franklin street. The usual routine business was transacted.

The regular meeting of Shetucket lodge, No. 27, was held at Odd Fellows' hall, Tuesday evening. Routine business was transacted. Nominations were made for the annual election of officers to be held at the meeting next Tuesday evening.

OWLS.

The regular meeting of Norwich lodge, No. 1284, Order of Owls, was held Tuesday evening with a fair attendance. Only regular routine business was transacted.

AMERICAN LEGION.

There has been some talk of forming a Woman's auxiliary to the American Legion. Such organizations have been formed in several other cities in the state, including Hartford, New Britain and Rockville. The local post is anxious to co-operate with any persons who are desirous of forming an auxiliary here if enough interest is shown. The constitution of the legion deals with the auxiliary in Article XIII, which is as follows:

Section 1.—The American Legion recognizes an auxiliary organization to be known as the "Woman's Auxiliary of the American Legion."

Section 2.—Membership in the auxiliary shall be limited to the mother, wife, daughter and sisters of the members of the American Legion and to the mothers, wives, daughters and daughters of all men and women who were in the military or naval training service of the United States between April 6, 1917, and November 11, 1918 and died in line of duty or after honorable discharge and prior to November 11, 1920.

Section 3.—The auxiliary shall be governed in each department of the American Legion by such rules and regulations as may be prescribed by the national executive committee and thereafter approved by such department of the American Legion.

KNIGHTS OF COLUMBUS.

That the United States army, which connected with the Graves Registration Service in France have made every effort to make the American military cemeteries in the battle areas in France in a fitting resting place for America's heroic dead, is a statement made by John A. Owens, of Taunton, Mass., who has just returned from France after completing his work with the Knights of Columbus committee on war activities. Mr. Owens, a former newspaper man, travelled thousands of miles on trips to military cemeteries from Belleau Wood, where many of the Marines are buried, to the little cemetery at La Chapelle-sous-Rougemont, commune of Epflort near the Swiss border.

He has taken hundreds of photographs of individual American graves and these have been forwarded to the parents or next of kin of the deceased soldiers. In this work he always received the active co-operation of the officials of the Graves Registration Service, who extended to him every possible courtesy and assisted the K. of C. man in many ways in locating isolated graves and cemeteries, in which but a few bodies were interned. "What is the condition of the American military cemeteries which you have visited in France?" Mr. Owens was asked by the writer. In his reply the K. of C. secretary said in part: "From first hand knowledge of hundreds of American cemeteries which I have visited in the battle areas I think that the conditions of the cemeteries as a whole is very good and in many cases the army men in charge

of the cemeteries are very good and in many cases the army men in charge

FORMULATING PLANS FOR IMPROVING JERUSALEM

London, Dec. 26.—(Correspondence of the A. P.)—Professor Patrick Geddes, town planner, who has in hand projects for the improving of Jerusalem for the Zionist Organization, aims at making the changes without destroying the historic and romantic aspects of the ancient city, according to a statement which he has given to the Zionist Bulletin.

Professor Geddes states that one of first tasks will be in connection with the Hebrew University, and he hopes to begin on that next year, utilizing buildings already erected. Research laboratories for chemistry will be a feature of the school. Dr. Weizmann, the Zionist leader, who has been reader in bio-chemistry at Owen's College, Manchester, will be in charge of the research work.

Professor Geddes says he hopes also to start a Palestine museum and suggests that nothing more of historical and archaeological interest should go out of the country.

1,500 STEEL MEN VOTE TO CONTINUE STRIKE

Cleveland, Ohio, Dec. 26.—Fifteen hundred steel men voted unanimously to continue on strike and to remain away from their former employment until the strike is won, or officially declared off by the national officers.

The decision was reached after they had heard the report of two of their number who had conferred at Pittsburgh with W. Z. Foster, national secretary of the steel strikers. Mr. Foster said that it was his opinion that the men were making a winning fight. The members of the union also voted to start a Palestine museum and suggested that nothing more of historical and archaeological interest should go out of the country.

5,000 BARRELS OF WHISKEY BEING LOADED AT PITTSBURGH

Pittsburgh, Pa., Dec. 26.—Five thousand barrels of whiskey were being loaded here tonight in the hope that it might reach the seaboard in time to be shipped abroad before national prohibition becomes an accomplished fact Jan. 16.

Distillers said it was the first of a large amount of liquor held in this district which had been sold in Europe, but they had little hope of getting more than one-tenth of it out of the country. More than ten million gallons, it was said, were still in the warehouses in this vicinity.

THOROUGHLY CONCURS IN VIEWS OF ADMIRAL SIMS

Philadelphia, Dec. 26.—Captain Raymond D. L. Hasbrouck, commander of the battleship Minnesota, tonight confirmed the report that he had declined to accept the navy cross awarded him by the navy department. He said he "thoroughly concurred" in the views of Rear Admiral Sims contained in his recent letter to Secretary of the Navy Daniels that no special award should be given to officers whose ships were successfully attacked.

SIBERIANS AND POLES REPULSE THE BOLSHEVIKI

Irkutsk, Dec. 25.—The general staff of the All-Russian government announced today that an attempt by the Bolsheviks to occupy the Lithovna station on the trans-Siberian railway, just west of Taldia, was repulsed by Siberian and Polish troops. The Bolsheviks had been defeated at many points, losing much guns and prisoners. The Siberians and Poles are in possession of the Lithovna-Taldia region.

"77" FOR COLDS

The fair fame of "Seventy-seven" for Grip and Colds is the entering wedge into many homes and families for Dr. Humphreys' long list of Remedies for all diseases which it is safe and wise for the non-professional to treat.

A simple Medical Book published in English, French, Spanish, Portuguese and German—mailed free to any address in the world.

At all Drug and Country Stores.

Humphreys' Homeo. Medicine Co.

154 William Street, New York.

ed by German submarines, though no special blame should be attached to commanding officers for their failure.

"Concurring in the views of Admiral Sims," said Captain Hasbrouck at his home in Bryn Mawr tonight, "I could not consistently receive the award for the reason that I had lost my ship."

Beyond this brief explanation Captain Hasbrouck was disinclined to talk. In reply to further questions he said he saw his name in the list of awards and after reading Admiral Sims' letter he wrote to the department declining the honor awarded him. He had no quarrel with anyone, he said.

Captain Hasbrouck was in command of the transport Covington when she was sunk on July 1, 1915, returning to the United States after having landed troops in Europe. Six men lost their lives.

HELD IN \$25,000 BAIL FOR HOTEL ROBBERY

New York, Dec. 26.—Raymond Rodriguez and Adrian Alvarez Herrera, accused of attacking and robbing Mr. and Mrs. A
